Module Template	
Revised : 2023-08-16	
Design'd by Bradley Gawthrop for Fieldkit.	
<p><i>This hardware is released under CERN Open Hardware License Version 2 – Permissive (CERN-OHL_P) Obviously, it's Distributed as-is; and no warranty is given.</i></p>	

## POWER REGULATION

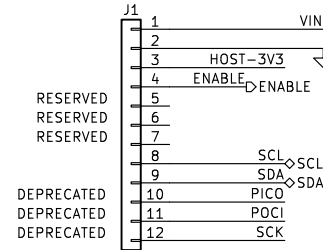

## EEPROM

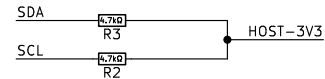

EEPROM DATA IS USED TO IDENTIFY MODULES AND STORE CALIBRATION

## MODULE CONNECTOR

HOST-3V3 IS AVAILABLE EVEN WHEN MODULE IS DISABLED.  
USE WITH CAUTION.

HOST POWER IS USED FOR PULLUPS  
BECAUSE I2C LINES ARE MONITORED  
TO DETECT MODULE HOT INSERTION  
EVEN WHEN NOT ENABLED
